

A Bill to Create Self-Sufficient Prisons

BE IT ENACTED BY THIS CONGRESS:

- Section 1.** All federal prisons, with few exceptions, will be entirely self-sufficient, with the exception of utilities and medical needs.
- Section 2.**
- A.** Federal prisons will be defined as all prisons under the Federal Bureau of Prison with the exception of maximum security.
 - B.** Self-sufficient will be defined as needing no outside help, with the exception of utilities and medical help.
 - C.** Utilities will be defined as public utilities, such as electricity and plumbing.
 - D.** Medical needs will be defined as the prescribed or needed help of a doctor, therapist, or other health professional that can not be found within the prison.
 - E.** Anything needed from outside the prison will be bought with money the prisoners earn from supervised jobs.
- Section 3.** The Federal Bureau of Prison (BOP) will create a task force for each prison, consisting of five people. Three will be from the chosen prison and two will be experts from BOP to create a plan that will best serve the prison. The task force will then implement it with the help of the guards and the prison warden.
- Section 4.** After passed, five years will be granted to create the plan, and then five years in order to implement it. After that all funding, except for utilities payment and medical expenses, will be cut.
- Section 5.** All laws in conflict with this legislation are hereby declared null and void.
